## WARNING:

Petitioner/applicant is equitioned to avoid submitting personal information in documents filed in a patent application that may contribute to identify theft. Personal information such as social security numbers, bank account numbers, or credit card numbers (other than a check or credit card authorization form PTO-2038 submitted for payment process) is never required by the USPTO to support a petition or application. If this type of personal information is included in documents submitted to the USPTO, petitioner/applicants should consider reducing such personal information from the documents before submitting them to the USPTO. Petitioner/applicants and information from the documents before submitting them to the USPTO. advised that the record of a patent application is available to the public after publication of the application (unless a non-publication request in compliance with 37 CFR. 1,217(a) is made in the application) or issuance of a patent. Furthermore, the record from an abandoned application may also be available to the public if the application is referenced in a published application or an issued patent (see 37 CFR 1.14). Checks and crodit card authorization forms PTO-2038 submitted for payment purposed are not remined in the application file and therefore are not publicly available.

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and balief are believed to be true; and further that these statements were made with the knowledge that willful fulse statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopartize the validity of the ... application or any patent issued thereon.

WARNING:

Petitioner/applicant is cautioned to avoid submitting personal information in documents filed in a patent application that may contribute to identity theft. Personal information such as social security numbers, bank account numbers, or credit card numbers (other than a check or credit card authorization form PTO-2038 submitted for payment process) is never required by the USPTO to support a petition or application. If this type of personal information is included in documents submitted to the USPTO, petitioners/upplicants should consider reducing such personal information from the documents before submitting them to the USPTO. Petitioner/upplicant is advised that the record of a patent application is available to the public after publication of the application (unless a non-publication request in compliance with 37 CFR 1.213(a) is made in the application) or issuance of a patent. Furthermore, the record from an abundance application may also be available to the public if the application is referenced in a published application or an issued patent (see 37 CFR 1.14). Checks and credit card authorization forms PTO-2038 submitted for payment purposed are not retained in the application file and therefore are not publicly available.

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the

## WARNING:

WARNING:

Petitioner/applicant is continued to avoid manifold personal information in documents filed in a patent application that may complute to identity then. Personal information such as social accurity numbers, Jank account numbers or credit card numbers (other than a check or credit card authorization form PTO-2038 submitted for payment process) is never required by the USPTO to support a petition or application. If this type of personal information form the fast intension of personal information in the destinant is included in documents submitted that the record of a patent application is available to the public after publication (unless a non-publication request in compliance with 37 CPs. 1.2131.) is thude in the application of a patent. Furthermore, the record from an abandoned application may also be available to the public if the application is referenced in a published application or an issued patent (see 37 CPs. 1.14). Cheeks and credit card authorization forms PTO-2038 submitted for payment purposed are not remined in the application file and therefore are not publicly available.

I hereby declare that all statements made herein of my own knowledge are one and that all determents made on information and behalf are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Scotion 1001 of Title 18 of the United States Code and thur such willful false attrements may journables the validity of the application or any potent issued thereon.
